

Bonus: Where is math.h?

從下圖可看到，我用 `echo` 指令找 `math.h` 的位置。

在我的虛擬機上 `math.h` 在 `./usr/include/math.h`。

A terminal window titled 'teewhy@tyler-vm: ~' with standard window controls. The terminal shows the command 'echo '#include <math.h>' | cpp -H -o /dev/null 2>&1 | head -n 1' being executed. The output is './usr/include/math.h'. The prompt 'teewhy@tyler-vm:~\$' is shown again with a cursor.

```
teewhy@tyler-vm:~$ echo '#include <math.h>' | cpp -H -o /dev/null 2>&1 | head -n 1
./usr/include/math.h
teewhy@tyler-vm:~$
```
